**7 FLOOR MOUNT**

- SLOTTED OUTRIGGER
- DOUBLE SLOTTED UPRIGHT
- PUCK SYSTEM

**11 WALL MOUNT**

**15 CEILING MOUNT**

*Floor Mount Fixtures are characterized by uprights that are attached to the floor with most of the weight of the fixture supported by a floor flange or insert.*

- Heavy duty floor mounted perimeter fixture used in illuminated highlight wall. Uses 1" on 2" centre front faced single slotted tubing.

FMT-001

- Rear and side slotted tube used in this floor and wall mounted system.

FMT-002

- Supported by floor while stabilized by the ceiling, this unit features a double slotted 2 piece channel upright. Finished in sparkle silver powder coat.

## APPAREL DISPLAY PERIMETER

### 7 FLOOR MOUNT

- SLOTTED OUTRIGGER
- DOUBLE SLOTTED UPRIGHT
- PUCK SYSTEM

### 1 WALL MOUNT

### 15 CEILING MOUNT

- Custom outrigger supports puck wall as well as puck mounting accessories. Designed for a wide variety of applications.

FMT-004

- Pucks are easily repositioned on side of upright to allow for varied arrangement of accessories.

- Uniquely designed slotted uprights allow horizontal support bars to be adjusted vertically.

Face outs, shelves and other accessories can be easily repositioned vertically and horizontally without the appearance of a full grid or solid slat wall.

FMT-005

- Uprights are sandwiched between two millwork panels. This floor mounted system is strategically used in front of window or store front where both sides can support merchandise.
